- Oily
- Acne (all grades)
- Sun damaged
- Aging skin

This multi-function masque combines AHA and BHA with gentle micro beads to eliminate dead skin cells, kaolin and sulfur to draw out impurities and soothing botanicals to calm irritated and inflamed lesions

# CLEAR CELL

salicylic gel cleanser

## product

This foaming, salicylic-based gel cleanser gently removes makeup and eliminates excess oil while lightly exfoliating dead skin cells and keeping skin smooth, soft and shine free. Ideal for oily/acne prone skin and teenagers. Paraben free.

## skin type

Oily, acne prone, grades I and II acne, aging.

## benefits

3-in-1 gel cleanses, exfoliates and tones. BHA foaming gel cleanser that gently removes makeup and eliminates excess oil. Adds essential antioxidants to keep skin soft, purified and shine-free.

## directions

Apply to wet face morning and evening and massage for 1 minute. Repeat cleansing for additional exfoliation. Because excessive drying of the skin may occur, start with one usage daily, then gradually increase to two or three usages daily if needed or as directed by a doctor. If bothersome dryness, irritation or peeling occurs, reduce usage to once a day or every other day. If going outside, use a sunscreen.

## key ingredients

### 5% Blend

# CLEAR CELL

medicated acne masque

## product

An AHA/BHA blended acne masque designed to immediately draw out impurities and excess oil. Antioxidant blends of nutrients soothe irritated and red acne lesions. This masque leaves skin fresh and oil-free. Paraben free.

## skin type

Oily, acne prone, all grades of acne, sun damaged/aging.

## benefits

This aggressive blend of salicylic and glycolic acid eliminates the toughest acne lesions. Just one application draws out oil and skin impurities while green tea, mallow and manuka add vital nutrients to dehydrated, oily/acne prone skin. Soothes irritated and inflamed lesions.

## directions

Clean the skin thoroughly before applying this product. Apply for 5-10 minutes; remove with tepid water, followed by a cold water splash. May be used as a spot treatment for active lesions. Apply 1-3 times a week or as needed for acne control. If bothersome dryness, irritation or peeling occurs, reduce usage to once a week. If going outside, use a sunscreen.

## key ingredients

### 5% Blend

Salicylic acid	BHA exfoliator
Glycolic acid	AHA exfoliator
Granactive acne (oligopeptide-10, boswellia serrata extract and honey extract)	Reduces lesion count, anti-microbial

MSM (dimethyl sulfone) An organic source of biologic sulfur. MSM is a mineral that has numerous benefits for your skin. It has soothing and calming effects, builds collagen and clarifies.

China clay (kaolin) High absorption of oil

# CLEAR CELL

salicylic clarifying pads

## product

A salicylic/glycolic acid skin pad to effectively remove impurities and excess oil. Deeply clears clogged pores and follicles to leave skin fresh and clean. A blend of antioxidants and calming ingredients reduce acneic inflammation. Excellent for on the road cleansing and after physical activities. Effective home care exfoliation. Paraben free.

## skin type

Oily, acne prone, acne grades I and II, teen skin.

## benefits

AHA/BHA blend gently removes excess surface oil and bacteria while reducing oil production. Excellent for physical activity and reduction of ingrown hairs.

## directions

Take out one pad at a time and apply by gently rubbing on entire face or affected areas. If going outside, use a broad-spectrum sunscreen like PREVENTION+. Because excessive drying of the skin may occur, start with one usage daily, then gradually increase to two or three usages daily if needed or as directed by a doctor. If bothersome dryness, irritation or peeling occurs, reduce usage to once a day or every other day.

## DID YOU KNOW?

Sebum (the medical term for skin's oil) is an essential part of healthy, youthful looking skin.

Anyone who suffers from oily skin and acne knows that excess sebum can be a real problem when follicles become clogged with sebum and dead skin cells bacteria grow and cause acne breakouts. Yet sebum plays an important role in keeping your skin supple and healthy.

The acid mantle is partially comprised of sebum and is your body's first line of defense against disease, it acts as a barrier to the skin, keeping out viruses, bacteria and other potential contaminants that might penetrate the skin while keeping essential moisture from escaping.

The key to achieving healthy, shine-free skin is balance. Using multi-function cleansers that cleanse, exfoliate, and remove excess oils without disturbing skin's natural acidic pH followed with oil free moisturizers with micro sponge technology to leave the skin with a matte shine-free finish all day.
