HOME CARE

The secret to maintaining beautiful skin begins with a balanced and effective home care routine that includes hydration, exfoliation, free radical and sun protection. Your esthetician can help you to customize your routine to resolve your chief skin concern: Age correction, age prevention, un-even skin tone (hyperpigmentation), rosacea, acne or unbalanced skin.

MAINTENANCE TREATMENTS

To assist the homecare routine in delivering desired results, in-spa maintenance treatments are recommended every 4 to 12 weeks depending on your skin's overall health. Maintenance treatments will also assist in maintaining the results of a peel series. Image Skincare Post Treatment Kit is included with each treatment.
